GOVERNMENT COLLEGE HANSI

(NAAC Accredited B)

One Day Multidisciplinary National Seminar
on

EMERGING TECHNOLOGIES AND
CHALLENGES IN
COMPUTER SCIENCE & COMMERCE

31st January, 2026

Sponsored by:

DEPARTMENT OF HIGHER EDUCATION HARYANA

Organized by:

Department of Computer Science
Department of Commerce
Internal Quality Assurance Cell

ABOUT THE COLLEGE

Govt. College, Hansi was initially started in 1968 as a private Arts College (Affiliated to Panjab University, Chandigarh) teaching up to bachelor's Classes named as Nehru Memorial College, Hansi, which was situated on National Highway No. 10 about 3 K.M away from Hansi Town towards Delhi. It was reaffiliated to Kurukshetra University, Kurukshetra in 1974 as it had started as a new University. Commerce classes were also started in 1977. This college had proved to be a boon to the students of all villages around Hansi town.

Nehru Memorial College, Hansi was taken over by Haryana Govt. on 15.2.1980 and renamed as N.M. Govt. College, Hansi. Govt. decided to construct a new college building, as the old building was declared unsafe in 1984. A new campus had come into existence on 1.9.1988 on the Barwala bye-pass road about 2 K.M from Hansi Bus stand.

In the beginning, only a science block was constructed, and the college started its classes of Arts and Commerce faculties in the new building *w.e.f.* the session 1988. The Science classes (10+1 and 10+2) started in 1990, but were discontinued in 1996 and shifted to Schools. The college was renamed to Govt. College Hansi on 25-08-2015 as per the instruction of state government. The College is currently affiliated to Guru Jambheshwar University of Science and Technology, Hisar. Presently, B.A., B.Com., B.Sc. (NM), BCA, M.Com., B.Sc. (Hons) Mathematics, PGDCA courses are running in the college.

The post accreditation period of this college involves the phase from 2014 to 2018, when the institution was affiliated to Kurukshetra University Kurukshetra and with effect from 2017 it is affiliated to GJU S&T Hisar.

THRUST AREAS

- Artificial Intelligence
- Block Chain Technology
- Cloud Computing, Green Computing
- Computer Networks
- Cyber Security
- Data Analytics
- Internet of Things and Robotics
- Machine Learning
- Software Engineering
- Virtual/Augmented Reality
- Web Technology
- Digital Marketing
- Entrepreneurship
- Financial Management
- Fintech, E-Commerce Technology
- Industry 5.0
- MIS, HRMS
- Role of AI in Marketing
- Sustainable Finance/Accounting
- Environment Agriculture Technology
- GIS, Remote Sensing Technology
- Role of IT in Teaching Learning
- Skill Enhancement Through NEP
- Digital India and Viksit Bharat
- Make in India and Atmanirbhar Bharat

ABOUT THE SEMINAR

The Department of Computer Science & Commerce, Government College, Hansi has consistently worked towards fostering academic excellence and practical knowledge. This seminar reflects the department's commitment to prepare students and scholars for the dynamic digital era.

The seminar aims to provide a platform for academicians, researchers, industry professionals, and students to discuss the latest developments in emerging technologies and the challenges faced in computer science and commerce. It seeks to bridge the gap between theoretical knowledge and practical applications, encouraging participants to explore innovative solutions for contemporary issues.

The following outcomes are anticipated from this seminar:

- *Enhanced awareness of cutting-edge technologies shaping the future of computer science and commerce.*
- *Identification of key challenges in adapting to rapid technological changes.*
- *Promotion of interdisciplinary collaboration between computer science and commerce fields.*
- *Encouragement for research and innovation among students and faculty.*

In an age where technology and commerce are deeply intertwined, this seminar stands as a milestone event. It not only highlights the opportunities offered by emerging technologies but also addresses the challenges that must be overcome to ensure sustainable growth. By bringing together diverse voices, the seminar aims to shape the future of education, research, and industry practices in India and beyond.
